

Research Projects Undertaken by IIPS

The Institute undertakes research in a number of issues of the region concerning population. The Institute is reputed for its precise survey designs and data collection techniques. Several National and International organizations have preferred IIPS as the nodal agency to collect valid information on their behalf.

Completed Research Projects

The faculty completed twenty research projects, eleven projects funded by the Institute and nine projects funded by some outside agencies, during the academic year (2005-06).
